Series GF

# Series GF

## Cooling unit

### High-capacity with multiple applications

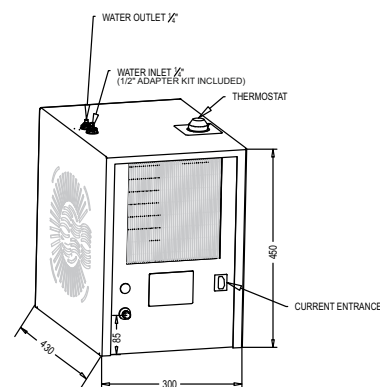

*Superior quality, made entirely of stainless steel,  
a 100% recyclable and highly durable material*

## Series GF

### Supplies cold water to fountains and taps

Compact cooling unit. Optimized height for concealed installation under sinks or countertops, while ensuring a high flow rate. It allows the cooling unit and the water dispensing point to be installed separately. An ideal solution for supplying chilled water to Canaletas BS bottle stations. Drainable tank for improved hygiene. Cold water temperature adjustable by thermostat.

Installation drawings

### Models

#### GF-86H

Height: 450mm  
Superior cooling capacity.

### Technical data

|                                                                                 | GF-86H      |
|---------------------------------------------------------------------------------|-------------|
| Cooling power (W)                                                               | 700         |
| Power consumption (W)                                                           | 230         |
| Voltage 230V 50Hz single-phase (A) (Other options available)                    | 1,1         |
| Continuous cooling capacity (Room T: 30°C, Input T: 27°C, Output T: 17°C) (l/h) | 60          |
| Water tank capacity (l)                                                         | 4,5         |
| Cold water output temperature (regulated by thermostat) (°C)                    | 4-11        |
| Refrigerant gas (CFC-free)                                                      | R290*       |
| Dimensions (mm). Height x Width x Depth                                         | 450x300x430 |

\* R290 is a natural refrigerant with no ozone impact. It offers high efficiency and reduces energy consumption.
