Wall mounted bottle filling station

Superior quality, made entirely from stainless steel, 100% recyclable and highly durable material.

Model: BS-2 OP

Series BS

Elegant and streamlined bottle filling station Compact wall-mounted design for flexible installation

Wall installation ensures an ideal placement and the desired height, making it accessible to all users, including children. Water, drainage and electrical connections can exit through the rear or through the bottom of the bottle station, in which case a stainless steel cover accessory is available. 100% made in stainless steel. Bottle filling station operated by a sensor. Designed for convenient and secure bottle placement. Blue LED highlights the filling area and adds a modern look. Safety timer to automatically stop water flow. Compact and high-performance cooling unit. Designed to supply chilled water to the bottle filling station. It can be installed behind the wall or in any preferred location. One cooling unit can supply cold water to several filling stations, optimizing costs and installation. With drainage system for a better hygiene. Easily regulated cold water temperature (thermostat).

Optional filters: Carbon block, Sediment, UV filters, Ultrafiltration or RO.

Internal chassis
WARRANTY

Models

BS-8 OP

- Sensor: cold water. Including cooling unit.

BS-2 OP

- Sensor: without cooling.

Technical data

Series BS-8OP

Cooling power (W)	700
Power consumption (W)	230
Voltage 230V 50Hz single-phase (A) (Other options available)	1.1
Cooling capacity in continuous (Room temp.: 30°C, T in: 27°C, T out: 17°C) (l/h)	60
Water output speed (l/h)	360
Water tank capacity (l)	4.5
Cold water output temperature (Regulated by thermostat) (°C)	4-11
Refrigerant gas (CFC-free)	R-290*

*R-290 is a natural refrigerant with no ozone impact. It offers high efficiency and reduces energy consumption.

Cooling unit: GF-86H

98/83/EC
