Drinking fountains

Fully-recessed drinking fountain with bottle filling station

Superior quality, made entirely from stainless steel, 100% recyclable and highly durable material

Model: EN-8TS OP

Series EN

Ideal for hallways, corridors, or compact spaces
Equipped with an integrated bottle filling station

The installation of the cooling unit behind the wall ensures a fully accessible passage. All elements are manufactured in stainless steel: bottle filling station, front panels, the internal frame structure and cooling unit. Designed for convenient and secure bottle placement. Blue LED highlights the filling area and adds a modern look. Bottle filling station operated by a sensor or push button. Safety timer to automatically stop water flow in sensor models. Removable lower ventilation panel for easy maintenance access. Interior structure supporting the bottle filling station, panels and cooling unit. Compact and powerful cooling unit. With drainage for improved hygiene. Easily regulated cold water temperature (thermostat).

Optional filters: Carbon block, Sediment, UV filter o Reverse Osmosis.

Internal chassis
WARRANTY

Models

EN-8TS OP

- Sensor: cold water

EN-88TS 2PU

- Push button: cold water, room temperature water

Cooling unit

Powerful and compact.
Exclusive design.
Front ventilation.

Technical data

	EN-8
Cooling power (W)	700
Power consumption (W)	230
Voltage 230V 50Hz single-phase (A) (Other options available)	1,1
Continuous cooling capacity (Room T: 30°C, Input T: 27°C, Output T: 17°C) (l/h)	60
Water output speed (l/h)	360
Water tank capacity (l)	4.5
Cold water output temperature (Regulated by thermostat) (°C)	4-11
Refrigerant gas (CFC-free)	R290*

* R290 is a natural refrigerant with no ozone impact. It offers high efficiency and reduces energy consumption.
