Series 4

Ideal for education centres, as the height can be adapted to suit students' ages

Greater hygienic protection thanks to a special, anti-vandal, patented water jet. The water jet height can be easily regulated using the high precision membrane valve. Improved hygiene since the push button is separate from the water jet. Easily regulated cold water temperature (thermostat). Superior quality, made entirely of stainless steel, a 100% recyclable and highly durable material. There is also the possibility to drink with bottles/cups for the LV models.
