Series EN

Drinking fountains.

Fully-Recessed refrigerated water cooler

Made entirely from stainless steel

Model: EN-8T

Series EN

Internal chassis
WARRANTY

Fully-recessed drinking fountain

All the fountain construction elements made in stainless steel: Fountain top, front grill panel and also internal frame structure. Compact stainless steel A-316 bubbler with guard design. Anti-vandalic self-closing push button placed on the front panel with exclusive membrane internal water valve. Very precise water jet flow height regulation. Large cabin inside dimensions for an easy and comfortable access. Hermetically sealed, positive start compressor with lifetime lubrication and built-in overload protection. Made in Europe. Condenser, self lubricated fan motor with thermal protection. Easily regulated cold water temperature by rotating thermostat control. Featured with a water drain tank to provide higher water security. Optional filters: Carbon block, sediment UV filters.

Models with:

- LV:** Top plate with glass filler and additional push button.
- PV:** Models with stainless steel lateral accessory for cups dispenser & disposal.

Technical data

Series EN-8T

Cooling Power (W)	600
Power consumption (W)	230
Voltage 230V 50Hz single-phase (A) (Consult other options)	1.1
Cooling capacity (Room temp.: 30°C, Input temp.: 27°C, Output temp.: 17°C)(l/h)	50
Water output speed (l/h)	360
Water tank capacity (l)	4.5
Cold water output temperature (Regulated by thermostat) (°C)	4-11
Refrigerant gas (CFC-free)	R-134a
